

True Human Freedom

COMMUNITY DISCUSSION PAPER

Proposed first step toward the restoration of Divine and Natural Lore to free ourselves and each other from the Satanic State Centrally Controlled System of human debt, and tax, mind, and soul slavery.

Our People's Emergency Response Proposed Measures, Agreed Actions and Authorisation Process.

We the People are calling for our own community wide emergency response under Divine and Natural Lore.

Our Line of Authority is to Our Divine Creator, through Christ, who has gifted us our Divine Right to Life and to Self-Governance living the Golden Rule under Divine Domain, as One Human Family, Divinely Designed to be Governed by Love and Freed by The Truth.

The purpose of Our People's Emergency Response Proposed Measures, Agreed Actions and Authorisation Process is to:

Protect and preserve Our Divine Right to Life as free and self-governing Living Men and Living Women of Our Living Earth, under Divine Domain.

WHAT'S THE EMERGENCY?

We are right now under direct and ongoing attack by the centralised banking cartel and those powerful few who sit atop the centralised hierarchy of human herd control and management.

The current 'powers that be' have declared war against 'we the people'. They have declared their depopulation plans, via Agenda 21 and Agenda 30, and are using covert weapons against our community. The same criminal actors who engineered world war one and world war two, are right now part way through their planned world war three using a range of silent weapons for quiet wars.

They have deployed multiple weapons and attacks against us, in their attempts to destroy our natural health and freedoms to reduce the population and make those who remain more easily managed through their centrally controlled digital beast system. Cashless society, microchipped population, with all aspects of life monitored, tracked, traced, policed and taxed. While the Church, the central banking cartel and the corporate governments that they control lay false claim to jurisdiction, ownership and control over Our Entire Earth and Our Human Family.

Their attacks against us comprise of multiple, serious and ongoing CRIMES AGAINST HUMANITY including:

State funded and organised child trafficking through the DCP in South Australia, and all the other so called 'child protection' departments across the whole of the corporate government, Satanic State construct.

The use of propaganda via the mainstream media to saturate the community in fraudulent information to trick them into believing falsehoods, currently focused on the covid psychological warfare operation. <https://questioningcovid.com>

The deployment of the experimental covid bio agent against our community – which is proving both deadly and damaging, with no long-term safety studies, and no product liability for people killed or damaged by these experiment injections.

The deployment of energy weaponry systems under the guise of 'faster internet', again with mountains of evidence that the non-native electromagnetic Frequencies being beamed from towers and short-range transmitters saturating our communities, is in fact damaging to our natural human health and wellbeing. Causing stress to our cells, leading to a range of symptoms, disease and premature death.

The ongoing use of Geoengineering and weather modification technology to control and disrupt food production and to engineer the 'climate crisis', including deliberately engineered fire storms, to drive people off the land, and into designated human settlement zones and 'smart cities'. Enabling more efficient centralised monitoring and management of the human herd.

Economic warfare, in the form of the engineered covid 'staged' pandemic, to cause hardship to many small and independent business owners and self-employed people, as well as hardship to mortgage holders and to our wider community at large. With the view to crashing our people's independent economy, to have as many people as possible dependent on the State and on Corporations. To enable them greater control over individuals through financial slavery. No job, no pay. Ref: <http://www.stopthecrime.net/docs/SILENT%20WEAPONS%20for%20QUIET%20WARS.pdf>

Arrest warrants have been issued for the corporate controlled criminals posing as our Governments as of April 17th 2021. I for one support this action. Our community has a right to an emergency broadcast to have this honest information presented in a format that the wider community can process.

It is of urgent and critical importance that We the People see these covert crimes against us for what they are – organised, strategic, systemic evil warfare. A war being waged against we the many by the all-powerful few. Using our own people against our community via feeding down bad information and deadly directives from the top of their centralised system of human herd management. These warfare operations constitute a direct and ongoing attack on our lives, on our families, on our communities, on our businesses and livelihoods, on our peace, privacy and natural human rights and freedoms.

CALL TO EMERGENCY RESPONSE, WAR-TIME ACTION TO SELF DEFENSE.

This is a call for us to come together now in peace and unity to protect and defend ourselves, each other, our children and our living earth, from these real and present ongoing attacks that threaten our lives.

Desperate times call for Divine Measures.

AIM: Locally, take back our State for We the People, By We the People in peace and unity. Globally, take back our planet and free our humanity family from all forms of slavery and oppression.

Method: to be discussed and decided by our community.

Suggestions include -

Engage our emergency services departments, police and defence service to co-ordinate our community wide emergency response to safe guard life and end the ongoing covert attacks, in consultation with our community.
